

SCOPEIT 2024

Dear Parents and Carers,

2 February 2024

ScopeIT will commence Wednesday 21 February (Week 4) and will run through until Wednesday 10 April (Week 11) Term 1. Each week students in Years 4, 5 and 6 will participate in a 40-minute lesson taught by experts in coding and design.

In Year 4, students will be learning the components of a website and examine various graphic design principles. Students in Year 5 will code Arduino electronic components to perform various tasks. While Year 6 students will consolidate their programming skills by building and coding robots. Students in Year 3 will work with their teachers to explore Scratch coding activities throughout the term.

The cost for each ScopeIT program is \$56.00 per student for an 8-week course.

Students are able to use the NSW Creative Arts voucher to pay for the course. Please log in to the Service NSW website to redeem the voucher. <https://www.service.nsw.gov.au/transaction/apply-creative-kidsvoucher>

This is a wonderful opportunity for students to further develop their design and digital skills in a safe space with leading experts.

If you would like your child to participate in this technology program, please give permission through School Bytes and make the payment by **Friday 16 February 2024**. If you are using your Creative Arts voucher, please complete the form below.
